

3026 Handbooks

The school district's handbooks for students and staff are intended to convey information and explain school regulations and procedures that are necessary for the school to run smoothly and efficiently. Although the board of education may take action to approve the handbooks annually, the administration has the authority to change the contents of any handbook at any time so long as the changes are consistent with board policy.

None of the district's handbooks creates a "contract" between the school district, staff members, parents or students.

If any information contained in any handbook conflicts with board policy or state statute, the policy or statute will govern.
